

Boris wonders as he walks...

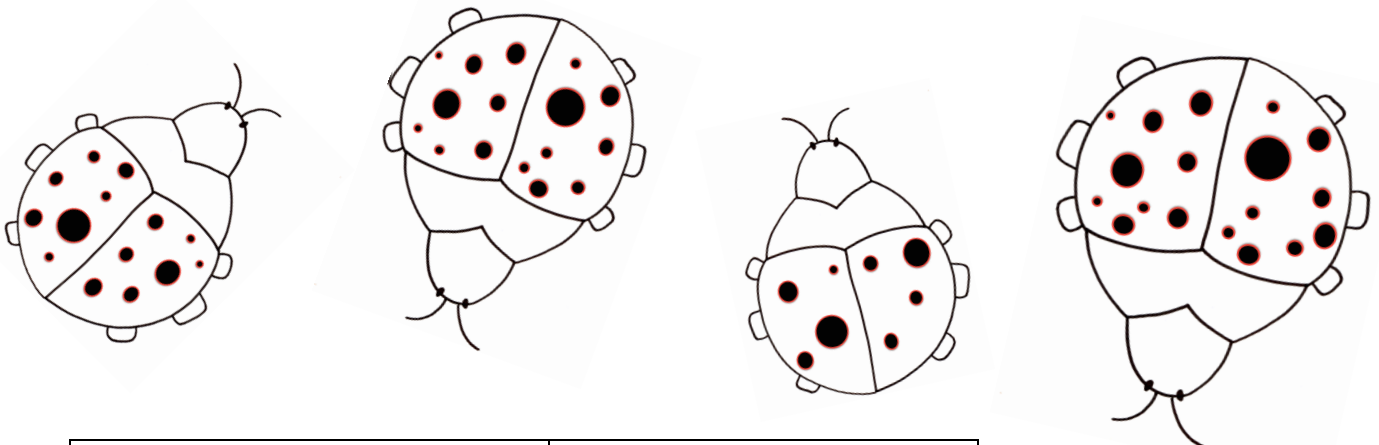

Can I count on in steps of 3, starting at 21?

21, □, □, □, □, □

Boris meets ladybird. She is worried.

She says,

***'One of my children is missing, but who?  
They all have different numbers of spots'***

Name of ladybird	Number of spots
Lydia	18
Lily	14
Larry	12
Laura	8
Lewis	16

Can you use the table to help Boris work out who is missing?

Intended Learning:

- Interpret pictograms, tables and simple graphs.
- Compare and order numbers from 0 up to 100.
- Count in steps of 2, 3, 5 and 10.
